

Pick and Place

Immediately create value added services with fast and simple set-up

The Pick and Place Series features the Sure-Placer and CD-Placer bays and multi-action Reciprocating Pick Arm that's built with dual suction cups, lexan cover, vacuum sensor for miss detection, time delay function and 1/4" thick powder coated side frames. The Reciprocating Pick Arm works simply by placing product directly into the inserter track or packaging line at a high rate of speed.

Why you need a Pick and Place

- > Pays for itself within 3 to 6 months
- > Reduce overhead
- > Consistent feeding
- > Completely mobile
- > Eliminate "hand" placing

Feedable Sure-Placer Material

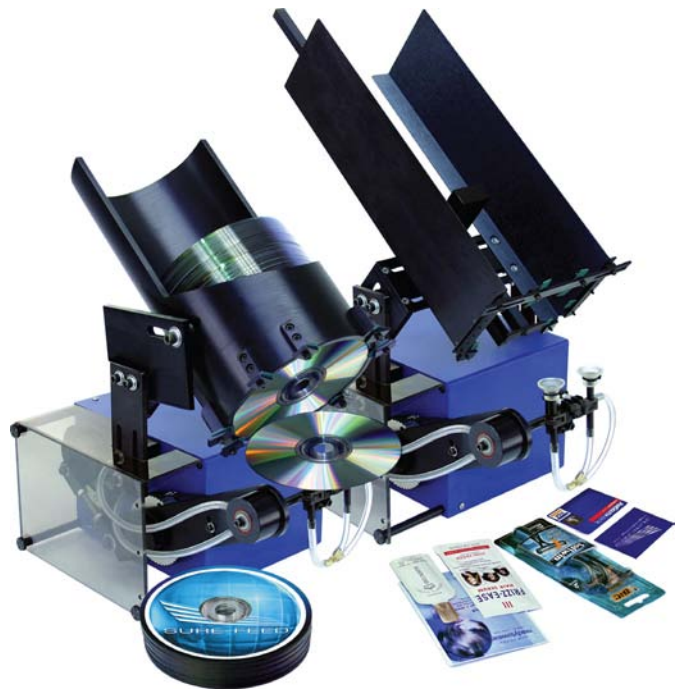

- > Credit cards
- > Business cards
- > Sample packets

Feedable CD-Placer Material

- > DVDs
- > CDs
- > Mini CDs

ALL COME WITH 2 YEAR LIMITED/90 DAY ELECTRICAL WARRANTY

Pick and Place

Reciprocating Pick Arm grabs the product with its two suction cups.

Pick Arm begins 180° rotation and prepares the product to be placed accurately.

Add a camera/scanner for verification in new position.

Once at the full 180°, Reciprocating Pick Arm places your product where needed.
