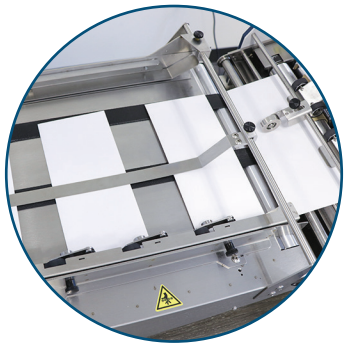
The **ColorMax9 Digital Color Printer** is the ideal solution for short-run inkjet printing. It provides **full-color 1200 x 1200 dpi printing** on envelopes and a variety of mailing and packaging materials. The system includes the printer and high-capacity intelligent belt feeder for incredible accuracy especially in landscape mode. Options include a **3-foot conveyor,** a **dedicated command station with PC and 32" curved monitor**, and a sturdy **workbench**. The ColorMax9 utilizes **HP print technology with vibrant pigment-based ink** which **resists fading, scratches, and water damage**. Its **wide print area and digital thickness control** allow for media applications **up to 1/2" thick and 15" wide**. The **intuitive 7" color touchscreen** provides control over the entire process including **image preview**, **system status**, and access to **up to 64 GB of stored print jobs**.



Don't get stuck in Portrait Mode!
Feeder Alignment Deck ensures accurate prints in Landscape Mode

Touchscreen Control Panel
For centralized operation and easy adjustments

Processes up to 10,000 #10 envelopes per hour: Production speeds in a robust tabletop printer
